hereby request for issuance of Biosafety Permit for Commercial Propagation for the genetically modified (GM) plant/plant products describe below:

Designation	Regulated Article	Donor Organism	Host Organism	Vector or Vector Agent	Constituents of the Regulated Article
Common Name	Stacked Trait Product MON 810 × NK603 and all progenies derived from crosses of the product with any conventionally- bred maize, and maize- containing	MON 810: Common soil bacterium  NK603: Common soil bacterium	Maize (corn)	MON 810 was produced by particle acceleration method using DNA solution containing two plasmids, PV- ZMBK07 and PV-ZMGT10. Only PV- ZMBK07 with the <i>cry1Ab</i> gene	Molecular characterization confirmed that MON 810 contains a single intact <i>cry1Ab</i> expression cassette integrated at a single locus within the

	registered biotech events.			was integrated into the plant genome.  NK603 was produced by particle acceleration method using a linear DNA restriction fragment from the vector PV-ZMGT32.	maize genome.  Molecular studies demonstrated that maize line NK603 contains a single copy of introduced DNA at a single locus. The insert contains two expression cassettes, each containing a single copy of the <i>cp4 epsps</i> gene.
Scientific Name	<i>Zea mays</i> L.	MON 810: <i>cry1Ab: Bacillus thuringiensis</i> subsp. <i>kurstaki</i>  NK603: <i>cp4 epsps: Agrobacterium</i> sp. strain CP4	<i>Zea mays</i> L.	-	-
Trade Name	YieldGard® Corn Borer with Roundup Ready® Corn 2	-	-	-	-
Other Designations	-	-	-	-	-

Identification No. of the Field Testing Application File	
--	--

**\*The following supporting documents are attached**

1. Certification from the BPI 1) for new application, that the regulated article has undergone satisfactory field trial in the Philippines, 2) in cases of renewal, a certified true copy of the expired Biosafety Permit for Commercial Propagation
2. A technical dossier consisting of scientific literature, unpublished studies or data from tests performed, or such other scientific materials relied upon by the applicant to show that the release for commercial propagation of the regulated article does not pose greater risks to biodiversity, human and animal health than its conventional counterpart;

3. Copy of the proposed Public Information Sheet for Commercial Propagation (Annex "D") including information required for evaluation of environmental and health impacts;
4. Information on socio-economic, cultural and ethical considerations;
5. Field trial report;
6. Project Description as prescribed by DENR-BC;
7. Project Description as prescribed by DOH-BC;
8. Applicant's Risk Assessment Report;
9. Import Permit (when applicable); and
10. Proof of payment of fees.

The undersigned certifies that based on his/her personal knowledge and/or authentic documents: (i) all the information in this application are true and correct; (ii) this application contains all information and views on which to base a decision and includes relevant data and information known to the applicant which are unfavorable to the application. The undersigned likewise warrants that the Regulated Article is to be imported solely and exclusively for commercial propagation.
